#GIVINGTUESDAY 25
THE TEAM OF THE ZAGORIY FOUNDATION 27
2022 was a turning point not only for Ukraine, but also for the world. The entire planet came to realize just how fragile security and peace are. At the same time, we have understood that we are building an ideal world with our own hands. It cannot come into existence on its own. Daily we fight for our decent future and happy life. We are surely witnessing social change that yields an undeniable influence on our lives.

Changes in charity have probably struck us the most. The Ukrainian non-commercial sector has made a quantum leap in its development, with its period of activity still continuing. International community is also undergoing changes. First of all, its focus is being shifted, while the allocation of resources is changing as well as the realization of the potential of the countries, which will be leaders in future, is dawning.

According to the International Charity Index CAF, Ukraine has for the first time in its history made it to the list of the first top 10 countries.

What does it all mean for us, the Ukrainian community of benefactors? It means that we have to continue moving forward and developing. Ukrainian philanthropy has shown sensational results in recent months. However, such a pace requires our attention and resources. The Zagoriy Foundation has always been orienting itself on sustainable and long-term work. The year of 2022 was no exception.

We continue to develop the culture of charity in Ukraine, while also implementing modern projects and developing the non-commercial sector for further growth.

Our goal is to engage in sustainable and long-term work. The previous year has shown that our life can be full of worries. However, we have to remain strong and demonstrate our resilience and dedication to our own convictions. This is exactly what will define our future. Let us continue moving and believing in our strength. Let us create Great Stories together!
FOREWORD
BY THE HEAD

Anually the team of the Zagoriy Foundation sets news goals, striving to reach new heights. The same case was at the beginning of 2022. February 24 brought about profound change. Other reality, other priorities and other life awaited each of us. 2022 was a real test of our strength, and we passed it with flying colors.

Looking back at the what we lived through in 2022, we can say that our adaptability to change and commitment to our goals were the things that helped us be where we are now. The Zagoriy Foundation believes that the development of the charity culture and support of sustainability of non-commercial organizations in Ukraine are as important as ever.

Not for a single day did we suspend our operations: we rethought our activities, having sharpened our focus as in crisis situations people tend to focus on the most important things, ignoring the irrelevant. That is exactly what we did.

We keep developing local organizations and the non-commercial sector in Ukraine. The fact that all this is possible thanks to the support we receive from international partners, and who help us move forward, merits a separate mention. We thank you for believing in us!

I keep saying that every report or successful project implies hard work of real people. Every successful partnership involves hundreds of letters and phone calls. Every victory comes as a result of effective work. It is for this reason that I want to thank our team and all the teams of the non-commercial sector of Ukraine. Together we are holding our front while creating Great Stories for real.

06
The educational course 'CHARITY MATCH: RELOADING' was launched

07
We conducted a quantitative and qualitative research 'Charity amid war' in the first half of 2022.
We learned that 86% of Ukrainians joined charity initiatives.
The sum of financial aid amounted to UAH 5870.
FINANCIAL EXPENSES

- Operational projects: 8%
- Own communications: 8%
- International partnerships: 12%
- Grants: 23%
- Administrative expenses: 33%
- Research: 2%
- Media: 12%

UAH 29 202 539,57
The vast majority of organizations (94%) either fully or partly carried on with their operations.

85% of the organizations that participated in the research are ready to cooperate with other organizations.

31.4% require financial support, whereas 25.48% of them are in need of humanitarian aid.

Most organizations that have been functioning for a long time continue to run their current projects in spite of funding cuts from donors due to a drastic priority shift.

All respondents pointed out the increasing interaction with the media.

According to all the respondents, the volume of funds raised drastically dwindled in the first month after the full-scale invasion. These organizations had to become more creative in their messages in order to keep the level of financial support stable.
84% of Ukrainian citizens said that the scope of charity was growing and that they noticed its rapid development.

86% of Ukrainian citizens became benefactors in the wake of the Russian invasion.

UAH 5870 is the average donation made during the first four months of the war (with every following month the sum decreased).

The number of volunteers grew sixfold after the invasion.

69.5% of the respondents do NOT check a charitable foundation before making their donation.

EDUCATION AND SUPPORT OF THE SECTOR

Following the beginning of the full-scale war we launched a free educational course ‘Charity Match 2.0’ for the representatives of the non-commercial sector. Our team adapted and added relevant materials about how to repurpose and continue with activities of non-commercial organizations amid war.

198 persons participated in the course. 87.5% of the participants said they acquired a lot of new knowledge that would be useful in their work. 83% of the participants assessed the feedback from curators as quite useful.

In October we announced a new and fully updated course ‘Charity Match: reloading’.

‘Charity Match: reloading’ consists of six educational blocks: starting from the organization’s launch to drawing reports on implemented projects.

20 EXPERTS from different fields 237 REGISTRATIONS 60 PARTICIPANTS

As of now we have a few partners who are financially supporting the participants, i.e. in the media and on a pro bono basis. These are:

MHP-Gromadi Foundation  Jiwo Agency  Postmen
The Media of the Great Stories  Private experts’ sessions

Participants of the course are also offered to have the funds they have managed to raise doubled after the successful implementation of a fundraising campaign on which they will be working throughout the course.
FIVE COORDINATION MEETINGS were held with a view to discussing and working out the plan for response to current challenges.

During the string of meetings we discussed issues regarding achievements and opportunities for the public sector in Ukraine. We also touched on the documents regarding the activities of charity foundations, financial and legal issues of fundraising, as well as prospects for coordination within the sector.

The documents drafted during the meetings were used to plan further activities of the Foundation.
COMMUNICATIONS OF THE FOUNDATION AND INFORMATIONAL SUPPORT

The format of our communications underwent changes in 2022. Our accounts on social networks became more open and comprehensible for the audience: apart from providing information about our own projects, we were also debunking myths about charity by telling more about the internal work done within the sector and its importance.

We added the following features:

- storytelling, personalized stories of our partners;
- useful information for the non-commercial sector, including trends in the international arena, pieces of advice on communications and grants;
- posts for Ukrainians aimed at raising awareness about relevant issues: revealing fraud and cornerstones of effective charity;
- personalized posts published by team members, their expert opinion and insights into the development of the commercial sector.

The Zagoriy Foundation is fostering international cooperation in order to more actively communicate about the needs of the charity sector in Ukraine, as well as to share the best practices and draw support from partners.

In 2022 we attracted help from international donors for the first time with a view to co-founding our projects. Our new international partners are:

- **CHOOS**
- **LOVE**
- Fondation de France
- GlobalGiving
- WINGS
- Earth

Last spring we obtained validation from the CAF America. This means that from now on the Zagoriy Foundation is entitled to receive donations from donors based in the US.

**CONFERENCES**

Our team participated in six international conferences, including:
- Philea Forum 2022 in Barcelona, Spain.
- 15th conference organized by the International Society for Third Sector Research in Montreal (online).
- The annual conference United Philanthropy Forum in Seattle (USA).
- PEXforum in Istanbul (Turkey).
- Konektor Forum in Warsaw (Poland).
- National Forum on Family Philanthropy 2022 in San Francisco (USA).

In our speeches we addressed the issue of effective aid for Ukraine and support for local organizations.
INTERNATIONAL ACTIVITIES

WORKING GROUPS

Within the framework of international cooperation we participated in almost 15 working group sessions organized by international associations Philea and WINGS. During one of these sessions we presented the results of our research 'Charity amid war' to the representatives of international foundations and researchers.

MEDIA OF GREAT STORIES

This is the first media outlet in Ukraine writing about charity. Founded by the Zagoriy Foundation in May 2022.

The development of Media of Great Stories in 2022 became possible thanks to the grant support offered by Choose Love. It is thanks to this support that we increased the number of published long-reads and authors, having launched our own account on Instagram and producing video stories.

Since its launch and until now Media of Great Stories has been pursuing the goal of developing the culture of charity. However, following the invasion of February 24 we adjusted our strategy, setting three main goals of the project. These are:

01 Promoting the culture of charity

02 Spreading information about the activities of the third sector and volunteer initiatives in Ukraine and abroad

03 Promotion and informational support of charitable organizations. Promotion of inspiring stories about good deeds of Ukrainians

Our media address the following three questions:

HOW TO EFFECTIVELY PROVIDE HELP?
WHERE HELP CAN BE OBTAINED FROM?
WHY CHARITY CONCERNS EVERYONE?
MEDIA OF GREAT STORIES

IN 2022 WE PUBLISHED:

- **240 PIECES OF NEWS**
- **over 300 LONG-READS**
- **5 SPECIAL PROJECTS**
- **over 300 LONG-READS**

The average number of monthly website views stood at **31 000**

In September 2022 we began shooting and promoting our own video stories about charitable initiatives in Ukraine. The stories are available [here](#).

As of the end of 2022:

- **7 VIDEO STORIES** were produced
- Videos were viewed by about **8000 PEOPLE**

MEDIA OF GREAT STORIES HAS ITS OWN ACCOUNTS ON SOCIAL NETWORKS:

- **Instagram**
  - Subscribers: 1 203

We are used to perceiving the successes achieved by the foundation as successes and victories of a one whole organism. However, behind every successful project there stands the team of the Zagoriy Foundation.

Each of us had their own concerns, underwent changes, claimed victories and suffered defeats in 2022. Nevertheless, every day we worked on our joint project and activities. Together we believed in our mission and did our best to achieve results.

In 2022 every Ukrainian had the possibility to express themselves and to fight on their own front. That was exactly what we did in the charity sector. Our team managed to not only live through 2022 with dignity, but to also bring the Zagoriy Foundation to a new level of development. We are convinced that the unforgettable is yet to come.

We are grateful to you for following and supporting us, for celebrating our victories with us. We do believe that we will continue creating Great Stories together.
